

Search shortcut for Script Workspace

For [MBS FileMaker Plugin](#) 10.3 we added a new shortcut with Command-Shift-F to jump focus in the search field for the script list in the Claris FileMaker Pro Script Workspace.

In Script Workspace:	
⌘ ⇧ F	to set focus to script list search.
⌘ F	to set focus to search field for current script.
⌘ +	zooms in.
⌘ -	zooms out.
⌘ =	zooms to 100%.
In text areas like custom function editor:	
⌘ R	shows rulers.
⌘ I	shows invisible characters
⌘ F	shows find bar.
⌘ G	goes to next found text.
⌘ ⌘ C	copies styled text.
In a list showing in the FileMaker, e.g. list of fields:	
⌘ C	copies content.
⌘ F	shows find bar.
⌘ G	goes to next found text.
⌘ +	zooms in.
⌘ -	zooms out.
⌘ =	zooms to 100%.
In relationship dialog:	
⌘ F	sets focus to search field.

Please enjoy and if you have questions, please don't hesitate to contact us.
